

Hello,

There will be intermittent one-lane travel on the northern end of Old Stage Road in Georgia between 8 a.m. and 4 p.m. through the end of February. Flaggers will direct traffic while travel is reduced to one-lane. Motorists may experience a very minor delay.

Construction of a portal needed to install a culvert 40 feet below I-89 will be visible to travelers on Old Stage Road.

*Crane is in place to begin installing metal sheeting for the portal. This the last portal to be done before construction activity resumes in the spring. The median and southbound portals were completed in late December/January.*

For more information on the project see [http://i89sbgculverts.vtransprojects.vermont.gov/about\\_georgia.html](http://i89sbgculverts.vtransprojects.vermont.gov/about_georgia.html)
