

Construction update Week of Feb 1 2017

Hello,

Beginning Wednesday, February 1, there will be intermittent one-lane travel on the northern end of Old Stage Road in Georgia between 8 a.m. and 4 p.m. for one week. The lane closure will facilitate the moving of a crane and related construction equipment needed to install a portal to a new culvert under I-89. Flaggers will direct traffic while travel is reduced to one-lane.

For more information on the project see

http://i89sbgculverts.vtransprojects.vermont.gov/about_georgia.html
